

## **Mission Statement**

### **Our Mission**

To improve the functional communication skills of children in their everyday environments.

### **Our Values**

#### ***Professionalism***

We act in an objective and professional manner to help individuals, groups and communities.

#### ***Communication***

To ensure that there is open communication between the therapist and the family so that client centered practice is maintained.

#### ***Quality Standards and Continuing Competence***

We value knowledge sharing and the contribution that others make to our work and our profession.

We maintain our currency of professional knowledge and practice and acknowledge the limits of these.

We value clear and timely communication with our clients, the community and all with whom we interact.

#### ***Respect and Care***

We respect the rights and dignity of our clients and we respect the context in which they live.

We maintain our personal health and wellbeing to effectively fulfill our professional responsibilities.

#### ***Fun***

To ensure that therapy is motivating for the individual student 😊
